**Dated: 03/10/20**

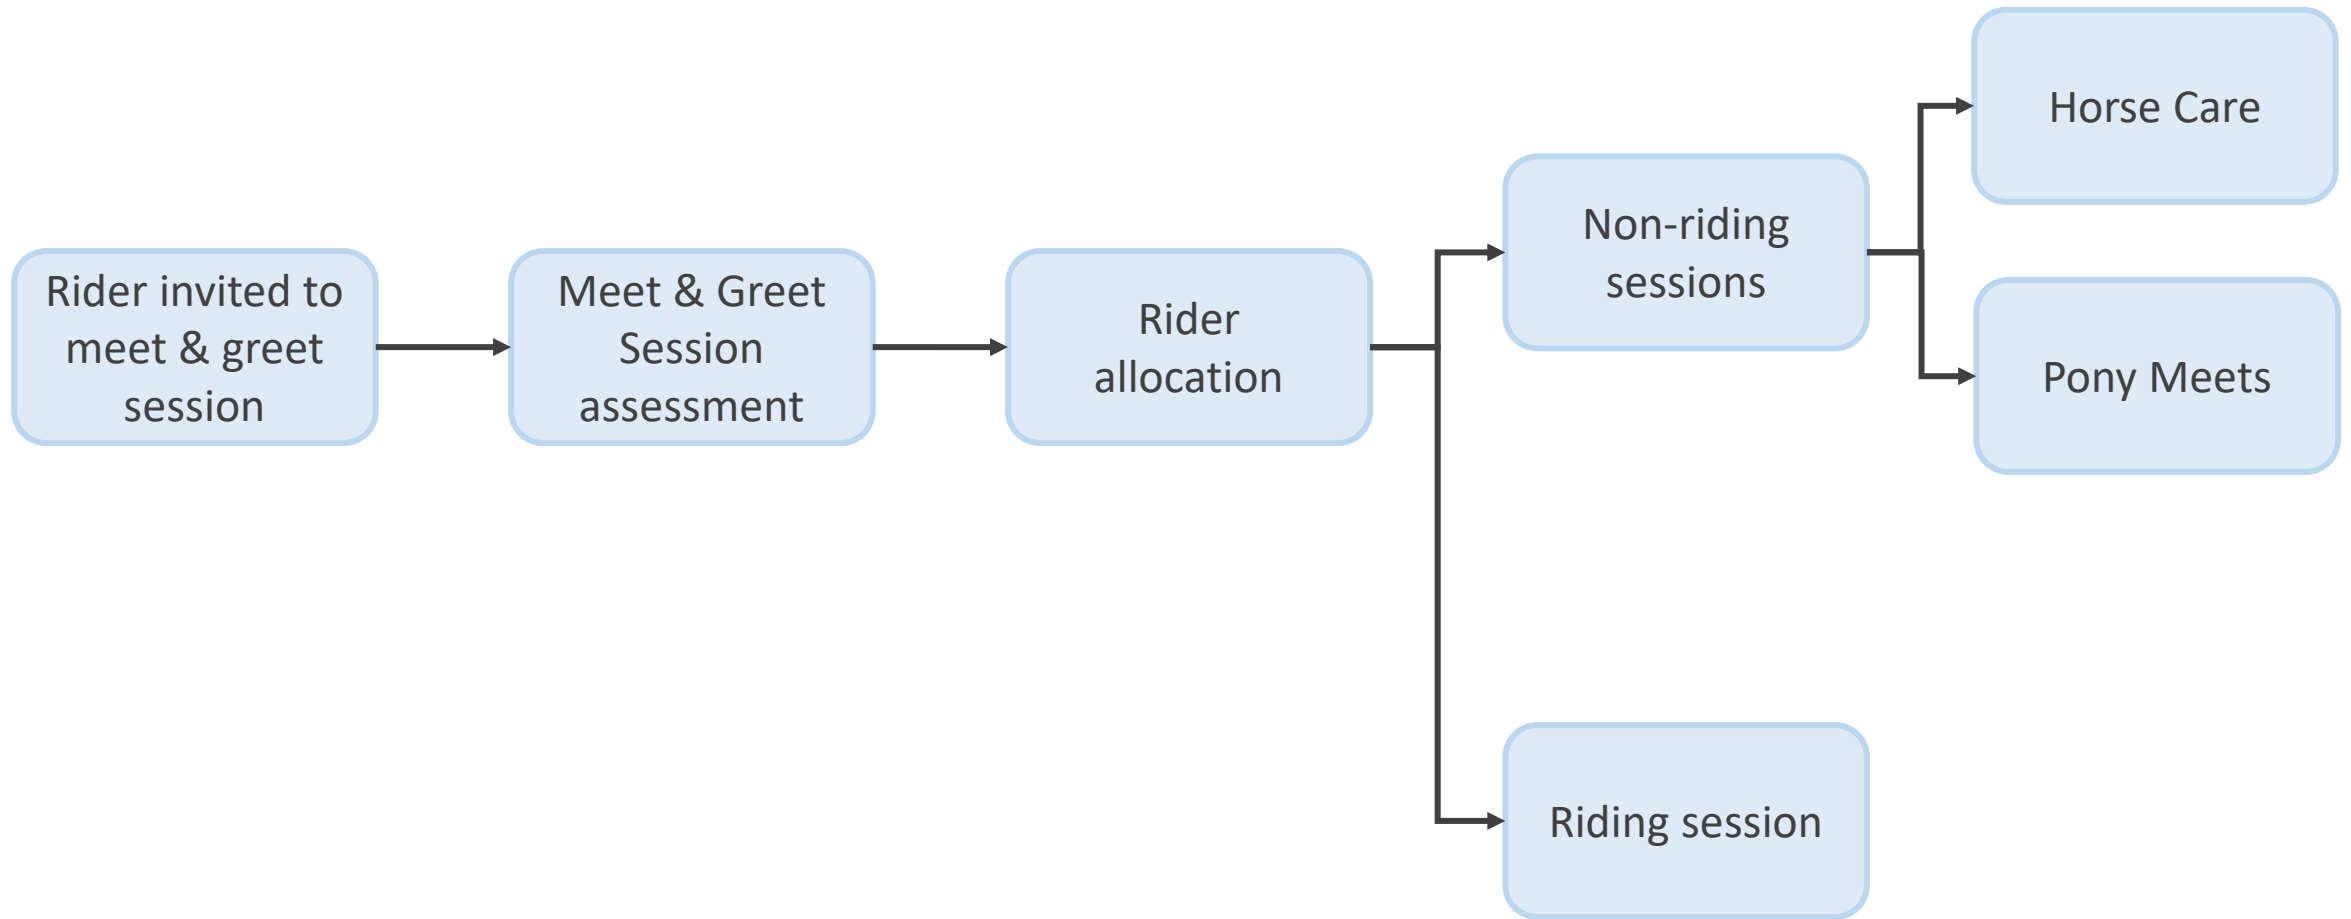

**Owner: RC Committee**

# High-level Timeline

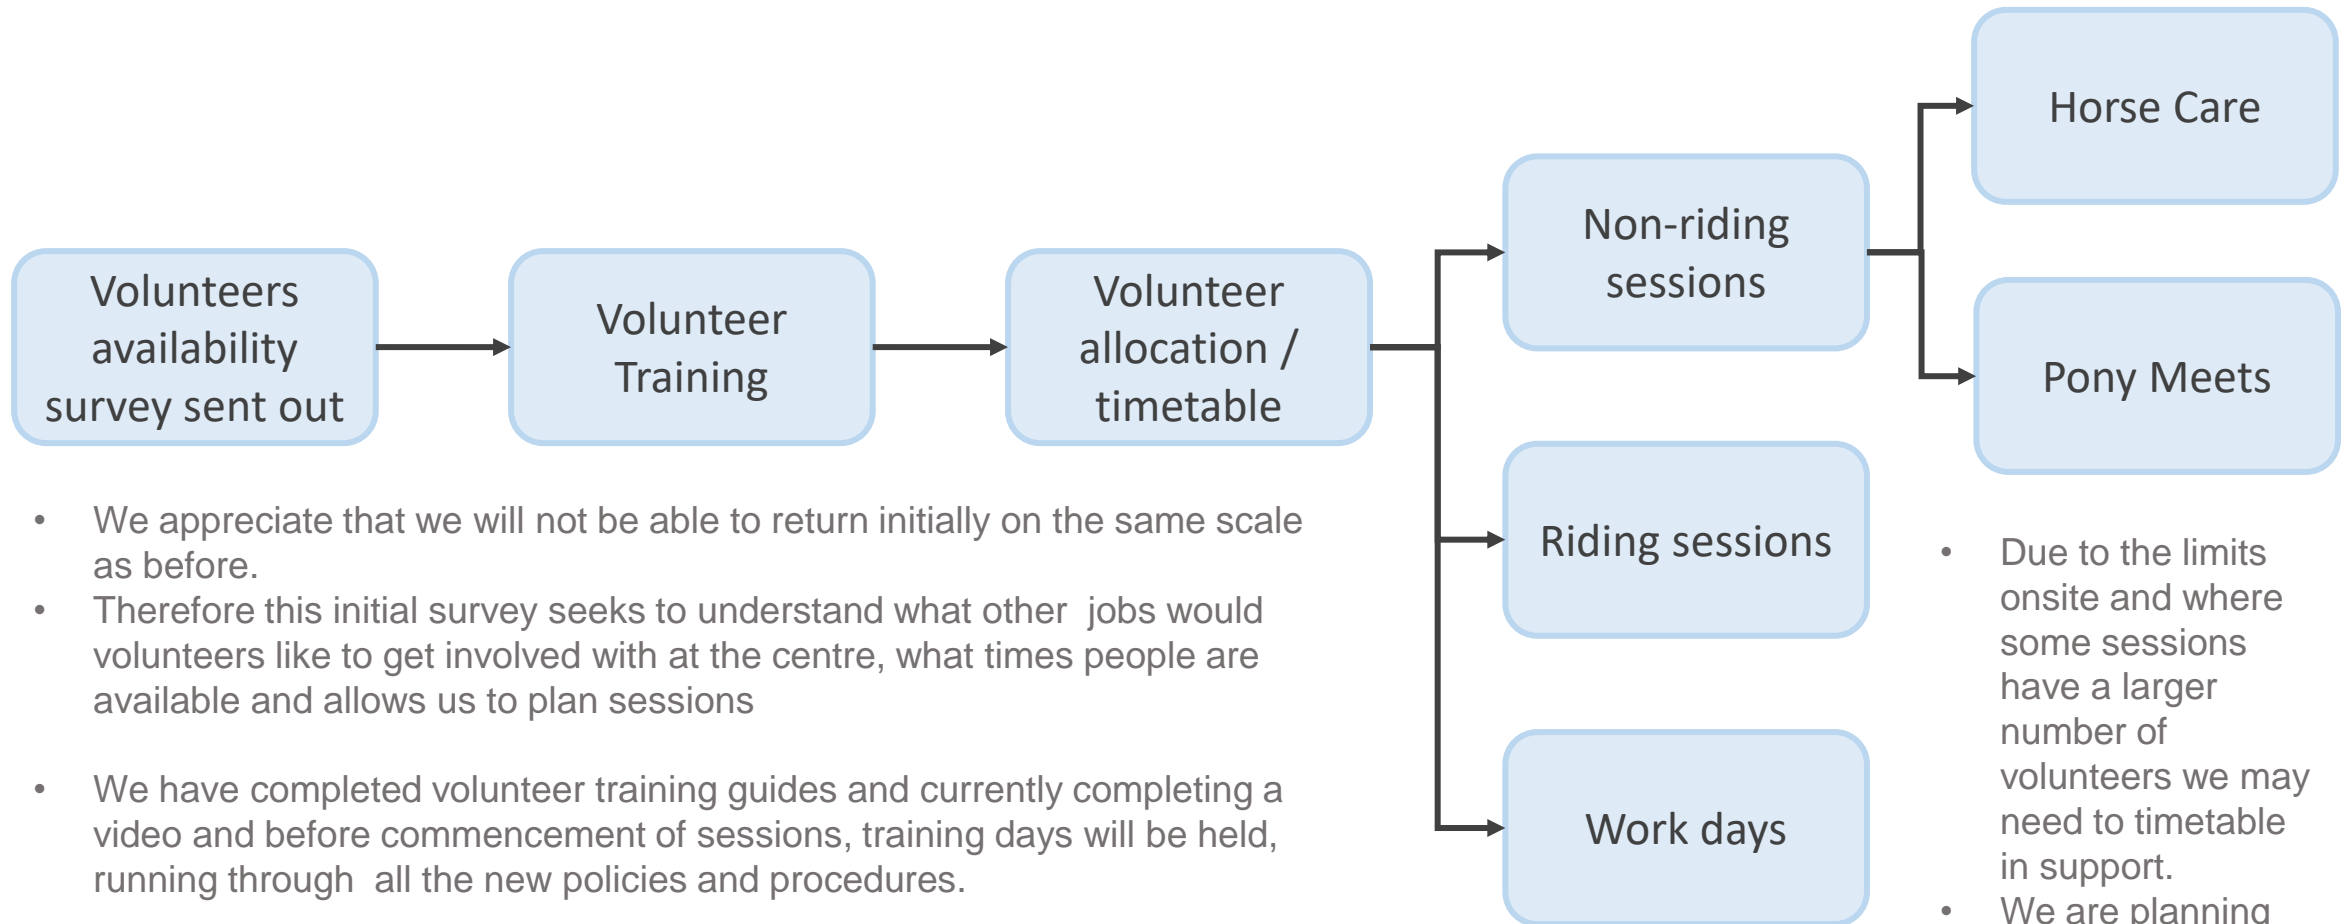

- Key:**
- Date on track
  - Date a risk
  - Complete
  - Date not assigned

# Rider Assessment Flow

# Volunteer Return Flow

- We appreciate that we will not be able to return initially on the same scale as before.
- Therefore this initial survey seeks to understand what other jobs would volunteers like to get involved with at the centre, what times people are available and allows us to plan sessions
- We have completed volunteer training guides and currently completing a video and before commencement of sessions, training days will be held, running through all the new policies and procedures.

- Due to the limits onsite and where some sessions have a larger number of volunteers we may need to timetable in support.
- We are planning workdays to allow volunteers to come up to complete other jobs.
